

# Your ministry's digital **home.**

One beautiful app that unites your whole church community — live today on iPhone, Android, iPad and the web.

HOLY FIRE MINISTRIES

## THE CHALLENGE

# A scattered community is hard to shepherd.

### Lost in the noise

Announcements buried under 200 unread WhatsApp messages.

### Missed moments

Events forgotten; sermons scattered across random links.

### No shared home

Nowhere central for prayer, the directory, or community life.

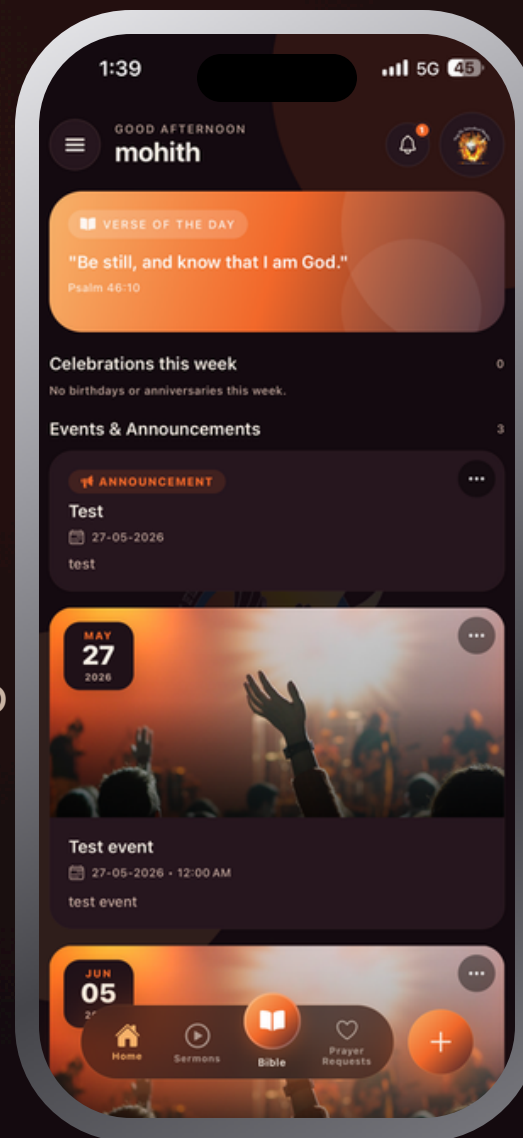

### Leaders stretched

Hours spent each week just keeping everyone informed.

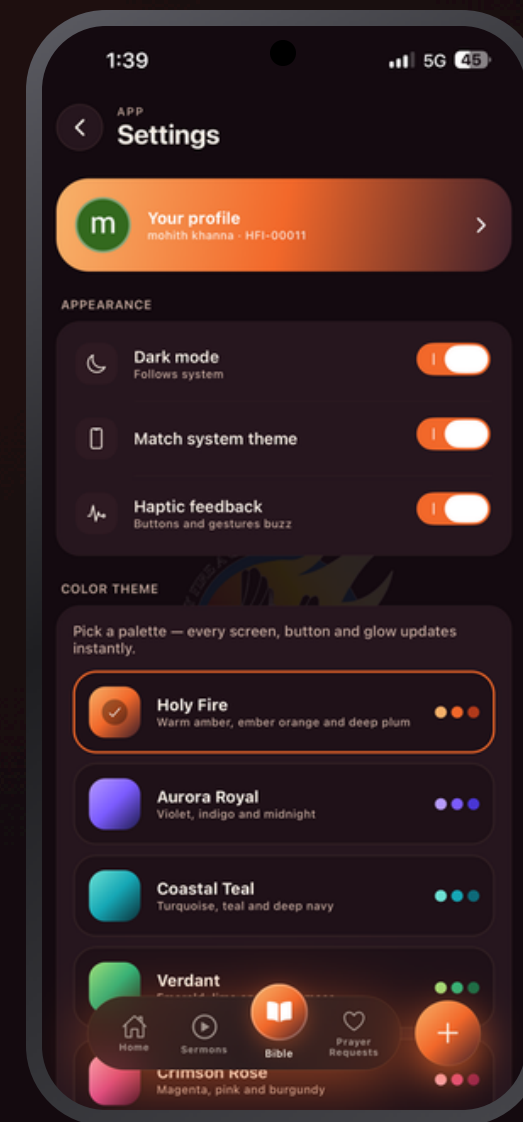

## THE SOLUTION

# One app. Every device. Everywhere.

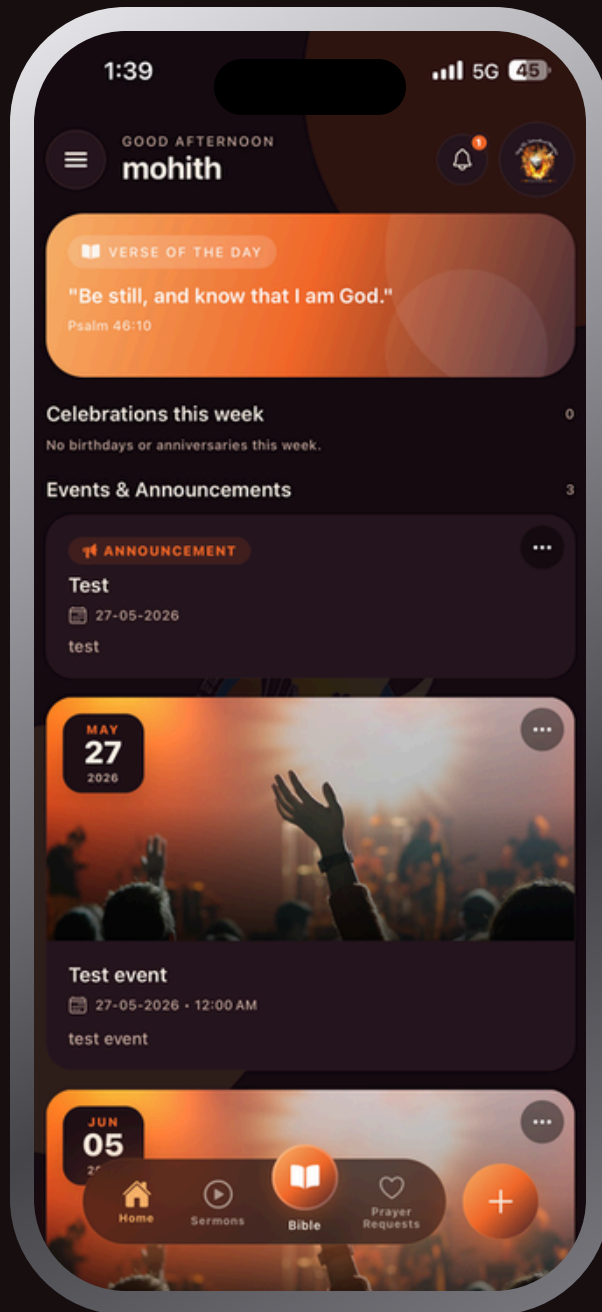

Native on iOS and Android, plus a full web experience — your whole church, together.
